EXPERIENCE

Data Scientist

A de Agro

📅 Oct 2022 – ongoing

📍 Brazil

- Machine learning project validation with data analysis and Python. Project for the understanding of soybean planting date to add a new satellite in the algorithms.
- **Skills:** Python, SQL, Qgis, Remote Sensing, Machine Learning, Data Analysis, Docker, Kubertents, AWS, Jira.

Data Scientist Intern

A de Agro

📅 Feb 2022 – Oct 2022

📍 Brazil

Artificial Intelligence Intern

Dataprev

📅 Mar 2021 – Feb 2022

📍 Brazil

- Development of models for classification, detection of civil documents and character extraction using OCR, decreasing the client's manual activity in analyzing and extracting information from documents. Development of a chatbot Framework with Rasa, allowing clients to configure and talk to it 24/7, which resulted in less human operator interactions.
- **Skills:** Python, Machine Learning, Deep Learning, Jupyter Notebook.

Discipline Monitor

UFPB

📅 Sep 2020 – Dec 2020

📍 Brazil

- Scholarship in the monitoring of the Data Structure subject, offered to courses at the UFPB's Informatics Center. Assistance to the professor and students of the subject, development of extra material, classes review, doubt shifts.

Volunteer

PyLadies Paraíba

📅 Jul 2019 – Ongoing

📍 Brazil

- In order to support other women, we organize events, give Python classes and create a support network with women from all over the state.

Volunteer

IEEE

📅 March 2018 – Ongoing

📍 Brazil

- We organize events, study groups and other activities within the local IEEE chapter. I participated as a member of the Women in Engineering (WIE) board in 2018 and continued with volunteer activities in the CS/CIS and WIE chapters.

EDUCATION

Bachelor in Data Science and Artificial Intelligence

UFPB

📅 Jul 2020 – Jun 2023

📍 Brazil

Bachelor in Computer Engineering (Interrupted)

UFPB

📅 Jul 2017 – Jun 2020

📍 Brazil

Bachelor in Nurse

UFPB

📅 Mar 2010 – Jun 2016

📍 Brazil

AWARDS

Among the five finalists in the Data Battle Badukai, Itaú Bank 2022

2nd place in RASckathon 2020

1st place in Hackathon Softcom 2019

SKILLS

Python

C

C++

TensorFlow

Cloud

Jupyter Notebook/Colab

SQL

AWS

scikit-learn

ONLINE COURSES

- Python and TDD: Exploring Unit Testing Alura - 2022
- Machine Learning with Python – Random Forest Souk Analytics - 2022
- Neural Networks and Deep Learning Coursera - 2021
- The Data Scientist's Toolbox Coursera - 2021
- Introduction to Data analysis UFPB - 2020
